Ahmad Zaheer

Computer & Technology Specialist — Web Development, Database Administration & IT Education

Phone	0773 484 541
Email	ansarwaqef7@gmail.com
Address	Khairkhana, Kabul, Afghanistan
Web	zaheer-tech.netlify.app

PROFESSIONAL PROFILE

Computer science graduate (AIT) and technology specialist based in Kabul, Afghanistan. Experienced in database administration (PHEMIS system, Payam University), web development with HTML, CSS, JavaScript, Tailwind CSS, and PHP, and teaching English and computer skills across five institutions. Creator of two live platforms: a free online programming academy (11 courses, 450+ lessons) and an online and offline exam platform. Applies AI tools, generative AI, and AI agents to speed up software development, media production, and office work. Works in Dari and English.

CORE COMPETENCIES

- Web development: static & dynamic sites, web apps
- Course design for IT and English
- AI-assisted development and automation
- Image editing and graphic design
- Office package and typography (ICDL CIT/DIT)
- Database administration and SQL
- Classroom and online instruction
- Generative AI for image and video
- Right-to-left, bilingual (Dari/English) interfaces
- Network basics and internet use (ICDL)
